Next year's Conference will be held at Huntington.

Rev. S. E. Shannon was, on his own motion, granted a location.

Teacher's Institute.

The Lawrence county teacher's institute met at the school building in Louisa last Monday.

Supt. Berry was President by virtue of his office, and Prof. G. M. Elam was chosen Vice President, and C. E. Hiler Secretary.

Prof. A. L. Peterson arrived on the morning train and at once took charge of the institute in the capacity of instructor. He is proving as popular as ever, and succeeds in getting the attention and keeping up the interest of the teachers on the subject in hand to a degree not attained by any other tutor we have had. Although he has conducted the Lawrence county institute twice before in recent years, his work this year appears none the less interesting, but as refreshing as before. He lectured last evening to a large audience in the M. E. Church.

The new law requires the organization of a teachers' association, and the teachers have proceeded to comply by electing officers. Dr. Hiler is president because of his office. One vice president is required for each magisterial district, and the following chosen: C. H. Carter, Miss Eva Gambill, C. E. Hiler, W. D. O'Neil, Gus Preston, C. S. O. Anderson and J. W. Buckner. Prof. Elam was elected secretary. Necessary committees were also named.

The evening exercises of the institute have been well attended by the public.

The session will close today, with everybody feeling that it has been an entire success.

As to State Senator.

The counties of Boyd and Greenup have instructed their delegations for Hon. E. Roe, of Greenup, for State Senator. Lawrence instructed for H. C. Sullivan and Elliott sends an unopposed delegation. T. H. Marcum withdrew from the race on last Friday. The convention will meet tomorrow at Catlettsburg.

Boyd county is entitled to 8 votes, Greenup 6, Lawrence 2 and Elliott 5.

Kentucky Crops.

The monthly crop report for Kentucky shows the average yield of wheat in the state to be 15 bushels per acre, and of oats 21 bushels. Corn in Eastern Kentucky is reported as high as 120, but in other parts of the state the drought has cut it down so that the average is only about 75 per cent. The tobacco crops in short and pastured is poor. The number of hogs and cattle is about one-fourth below the usual number.

A Romance.

Harry L. Ferguson, who has for a long time been clerk in the Aladdin Hotel at Ashland, last week surprised his friends by bringing home on a visit a wife and baby. He was married about two years ago to a young lady living just over the river in Ohio. His folks were not apprised of the marriage until about a month ago.

The trial of Dr. Wroten came up last Friday, but was continued until Wednesday, when the trial was begun. The testimony was completed yesterday afternoon and the speaking is not yet through. The case will probably go to the jury before noon to-day. The instructions provide for murder, manslaughter, or acquittal.

Democratic Convention.

A mass convention of Democrats met at the court house last Saturday, and the object of the meeting was stated by chairman A. J. Garred.

J. Q. Lackey was chosen temporary chairman and M. E. Conley secretary, after which the organization was made permanent.

On motion the chair appointed a committee on resolutions, consisting of one from each magisterial district, to-wit: J. W. M. Stewart, I. M. Garred, Bert Carter, and Fannin, and Andy Thompson and Life Carter.

The committee reported the following resolution:

Resolved by the Democracy of Lawrence county in convention assembled,

1st. We approve the call of this mass convention and of the convention to meet at Catlettsburg on Sept. 15, 1933, to nominate a candidate for State Senator and Legislator from this district.

2. We commend the businesslike and patriotic manner in which the present Administration has conducted the affairs of the general government.

3. We present to the consideration of the Senatorial convention to meet at Catlettsburg, the name of our fellow countryman, H. C. Sullivan, and we hereby instruct our delegates to vote as a unit for him as long as his name shall be before it. Having been born and raised in our midst, we confide in his loyalty, ability and integrity.

4. We direct that our delegates constructed as to candidates for member of the Legislature.

5. We direct that said delegates to said convention vote as a unit on all questions, a majority of said delegates governing them.

6. We name as delegates to said convention the following:

J. Q. Lackey, M. E. Conley, A. J. Garred, G. W. Gonnell, F. T. D. Wallace, Jay Norbop, F. E. Moore, and Fannin, A. J. Thompson, Bert Carter, Life Carter, M. D. Vanhook, Harvey Lester, John Stump, Levi Webb, John R. Carter, Sam Rose, John Hays, J. B. Spencer, J. F. Davis, D. L. Braden, W. D. Babbitt, French Gambill, W. W. Faght, Sam Lowe, Gable Lyon, James Holbrook, M. Sparks, A. P. Bopret, J. W. M. Stewart, W. M. Skagg, J. W. Rice, S. R. Vinson, W. J. DeBosette, H. W. Ferguson, Alexander Lackey, G. W. Castle, A. J. Wilson, K. J. Pritchard, G. E. Johnson, Gale Dixon, M. H. Thompson, Augustus Snyder, Tom Brannan, John Rice, Jr., Sam D. Smith.

7. We present to our fellow countrymen for their support for the office of Superintendent of County Schools, the name of C. H. Stuart, a well educated and made man, well qualified and deserving the honor.

8. Resolved, that these resolutions be published in the Big Sandy News.

An amendment was offered providing for sending the delegates to Catlettsburg unopposed as to either Senator or Representative. Upon a vote the amendment was lost, and the resolutions were adopted.

The prohibition of a candidate for County Commissioner was then taken up and the names of E. H. H. Webb, D. B. Brannan, John W. Shortridge and Frank Gambill were offered. Mr. Brannan's name was withdrawn before the vote. A motion was adopted to drop the hindmost man after each ballot, until one should have a majority. The final count showed forty-one votes for Mr. Gambill and fifty-five for Mr. Shortridge. The latter's nomination was then made unanimous.

The convention then adjourned.

The Dan.

With favorable weather the work on the lock and dam will be almost finished for the year by October 1st. Of the one hundred and twenty-five men now employed, but a few will be retained, and those left being practically completed the entire length of the coffer dam now standing.

It is ready to receive the iron frame work which is to support the needles. The unfinished end will be put in the best condition for receiving the addition next year. This fall the dredge boat will clear the passage above and below the part of the dam already completed.

The funds are almost exhausted and work cannot be resumed until Congress makes another appropriation, which will probably be about next June.

Swift Justice.

Judge Kinner on Wednesday impounded a special grand jury to investigate a horse stealing case. They promptly returned an indictment and the case was set for yesterday, but not being reached was continued until today. The offense was committed within the past three weeks.

On August 28th Sam Crabtree and Jim Whitl, aged about 17 years, came left here, and on the 30th returned with two horses. Subsequently they took the horses to Huntington and traded one for another horse, bringing it back with them. Crabtree was used as a witness and testified that they stole the horses in Morgan and Johnson counties. Crabtree has been in for stealing. Whitl will not do so again.

Parents Please Notice

That the Louisa Graded School opens Monday morning Sept. 18th.

That we intend to make this the best school ever taught in Louisa. If indefatigable work on our part will secure it.

That in order to make this school successful we must have the hearty cooperation of all patrons of the school. Parents, can you not assist in some way? Do not wait for anything to go wrong. If your child is weakly, thin, defective of sight or hearing, etc., let us know. See that your children spend their evenings at home with their books, look over their lessons with them, assist and encourage in every way possible.

That we cannot have success without regular attendance. A close record will be kept of the attendance, deportment, scholarship, times tardy, etc., of each pupil. Parents, examine your child's record and see his standing in school.

That the first bell in morning will ring at 8 o'clock, and the second, about ten taps, at 8:30 and the third bell, three taps, at 8:55.

That primary pupils will be dismissed at 11:30 o'clock for noon intermission, advanced pupils at 12.

The first bell for reassembling will ring at 12:45, second at 1 and third bell 1:45.

That the primary pupils will be dismissed in the evening at 3:30 o'clock, advanced at 4.

That the doors will not be open, either in the morning or at noon, until fifteen minutes before the second bell rings, at which time all the teachers must be present to take charge of their respective rooms.

That classes will be organized in all grades at the opening of the school; hence, the importance of coming the first day. Those coming in later may find no class suitable for them.

That no pupils shall remain at the school building at noon except those living at such a distance that it will be necessary for them to bring their dinners. These pupils, in cold and disagreeable weather, can remain in the school building.

That the Board of Education has adopted a course of study, and this school is strictly a graded school and that it may be necessary to place some pupils in a lower grade than they have heretofore been placed.

That all patrons of the school and others interested in the cause of education are cordially invited to be present Monday morning at the opening of the school.

PRINCIPAL OF SCHOOL.

When you go to the World's Fair don't write your name and address in every open register you see, unless you want to be inundated with all kinds of circulars for years to come. Many of these registers are displayed by shrewd advertisers for the sole purpose of catching the names of innocents.

OUR NEIGHBORS.

Suits by property owners of Huntington against the Ohio River Railroad aggregating \$150,000, have caused the managers of that road to remove the terminals point from Huntington to Gayandotte, four miles East.

The move to secure for this section a natural gas supply from the Wardfield gas district has again been revived by a Pittsburg company that holds a right of way in both Huntington and this city. Loe and Williams, of Huntington, are now engaged in the survey of the route, and something definite is expected at an early date. Ashland News.

It's a Misnomer.

S. N. Swinburne retires from the editorship of the Paintsville Courier after thirteen years' journalistic service, to enter the ministry. We do not know to what church Bro. Swinburne belongs, but he has a very good name for a Baptist preacher.—Frankfort Capital.

What Is It?

Mr. H. P. Thomas has a small stone (or something resembling a stone) of peculiar formation and features which he prizes highly. It was found in the river by the snag boat crew. It is black and has the appearance of a hard, dense stone. The action of the water has worn it but little, apparently. Two sides are flat and the remainder of the surface describes a sort of oval to one who is not very well up in geometry. But the most striking feature of the stone is the carving on it. Distinct lines are shown at regular intervals and between them are rows of hieroglyphs, resembling ancient Japanese work, or that of some tribes of Indians. After a great deal of study and much research, and a laborious comparison with hieroglyphic keys, the following translation has been obtained:

Thib lisan

This translation is worth more than a passing notice.

No person should travel without a box of Ayer's Pills. As a safe and speedy remedy for constipation and all irregularities of the stomach and bowels, they have no equal, and, being skillfully sugar-coated, are pleasant to take, and long retain their virtues.
